

Fight fraud against seniors

Billions of dollars are lost to Medicare fraud and errors every year.

It can happen when Medicare is billed for services or supplies never received.

Protect yourself against Medicare fraud and errors.

- Don't give your Medicare number or Social Security Number out to just anyone.
- Keep records of your medical visits, review your bills afterward and ask questions, if you don't understand something.
- Report any suspected issues.

**Call the Senior LinkAge Line®
at 1-800-333-2433 for help.**

A One Stop Shop for Minnesota Seniors

Every year billions of dollars are lost to scams and fraud via technology.

For many, technology is part of daily life. You can use it to find services and information, and to stay connected. But it can also be used against you.

Protect yourself against online scams.

- Never give out private information, such as your Social Security or Medicare Number to anyone online.
- Don't give out your credit card number, unless you're sure the site is secure.
- Be careful of emails that ask you to verify or confirm your personal information.

If you think you may be the victim of fraud or would like to volunteer to teach others to protect themselves against fraud, contact the Senior LinkAge Line® at 1-800-333-2433.
